In the fourth quarter of 2021, Sterling Mortgage Income Fund (“SMIF” or the “Fund”) continued its consistent and positive growth in a challenging and unprecedented year. We continue to follow our diligent approach in providing a conservative yield-oriented solution for our investors.

Following the third quarter, our loan activity for Q4 is primarily made up of extensions and advances on existing underwritten loans. We are pleased with the development of the luxury superyacht marina at Hurricane Hole; construction is nearing completion, including the Harbour Master building and installation of the floating docks.

Excitement within Sterling Commons is ramping up as tenants have begun to move in. Office and retail space is over 90% leased, and Phase 1 of the luxury residential units are sold out.

We are confident Hurricane Hole will become an integral forum and destination for its discerning owners and sun-seeking visitors — the optimal jumping-off point to explore the beautiful islands of the Bahamas. We expect completion of the marina in the first quarter of 2022. The year-end appraisal of the development has been completed and once again has resulted in a notable gain for 2021. SMIF participates in the profits of Hurricane Hole under the terms of its loan.

Achieving Outstanding Returns

We remain confident in the residential and mixed-use sectors. Furthermore, the ratio of senior to junior loans has improved from 61% in Q3 to 62% in Q4. Quarterly dividends have been paid out as scheduled at the preferred annual distribution rate of 7%, and we will be announcing a special distribution within the coming days based on the Fund’s full year return of 10.62% as outlined above.

UPDATE

Quality Over Quantity

The quality of our portfolio and underlying loans is critical to the Fund's overall performance. A challenging year has not altered our thorough and hands-on approach. We pride ourselves on the ability to move quickly on opportunities while at the same time forgo the loans which do not meet our criteria.

Sterling weighs character heavily in deciding who to do business with. Further, we are not interested in funding new loans on properties which we are not prepared to own. This is one of our risk management principles that has served our investors well. The Fund's portfolio remains robust and we are projecting a stable 2022, with capital continuing to move into quality projects.

SMIF's loans in the Canadian and UK markets are progressing as planned. While we are excited about our growth in the Bahamas and Cayman Islands, where we have boots on the ground, we continue to seek and entertain opportunities in the US, Canadian, and UK markets.

Outlook

The ongoing pandemic has been an unprecedented stress-test, and in a way is an act of cleansing and affirming of our principles. We have doubled-down on our values — Quality, Consistency, Diligence, Passion — and the Fund is on strong footing stepping into 2022.

Thank you for your ongoing trust in Sterling and Slate. We will work hard to continue earning your trust in the years ahead.
